

Breathe Activator TCM concentrate (30 Caps)

Stock Number: 1036

Benefits:

- Provides nutrition to help support healthy lung function.
- Helps increase the flow of mucus to remove toxins.
- Works throughout the entire respiratory tract.
- Enhances feelings of well-being.

How It Works:

The Chinese name for Breathe Activator is xuan fei®, which can be translated to mean “ventilate the lungs.” The Chinese would consider this a formula for a stressed metal constitution. Breathe Activator provides nutritional compounds long known to benefit the respiratory system.

The combination of ingredients may help the bronchioles to clear waste and maintain lung health. It also encourages the production of mucus to aid in cleansing the respiratory tract. Specifically, citrus peel and schizandra support the body’s efforts to clear waste from the respiratory system and enhance energy in the lungs.

Ingredients:

Concentrated extract of citrus peel, typhonium rhizome, bamboo sap, bupleurum root, fritillaria bulb, hoelen sclerotium, perilla leaves, platycodon root, xingren apricot seed, magnolia bark, morus root bark, ophiopogon root tuber, tussilago flower buds, ginger rhizome, schizandra fruit and licorice root.

Recommended Use:

Take 1 capsule daily with a meal.

NOTE: Pregnant or lactating women should consult their health care provider prior to taking this supplement.
