

Lung Support TCM Concentrate (30 Caps)

Stock Number: 1004

Benefits:

- May act as a tonic for the respiratory system.
- Maintains tissue surfaces.
- Supports the lungs and sinuses.
- Offers additional benefits to the circulatory and urinary systems.

How It Works:

This formula contains the same herbs as Lung Support, but in a highly concentrated blend. This Chinese combination was specially formulated to supplement the needs of a weakened metal constitution. The Chinese call this formula fu lei, which can be translated to mean “strengthen the weak and thin.” Lung Support is considered a lung tonic formula. Its primary herbs—anemarrhena, aster, bupleurum and astragalus—have been used in Traditional Chinese Medicine to boost the immune system, build energy and support the respiratory system. This formula may be beneficial as a nutritional aid for people experiencing occasional fatigue or loss of weight.

Ingredients:

Concentrated extract of astragalus root, tartarian aster root, large-leaf gentian root, platycodon root, anemarrhena rhizome, asian ginseng root, bupleurum root, dong quai root, lycium root bark, ophiopogon root tuber, bai-zhu astractylodes rhizome, schisandra fruit, tangerine green fruit rind, tangerine mature fruit rind, typhonium rhizome and chinese licorice root

Recommended Use:

Take 1 capsule with a meal daily. **NOTE:** Pregnant or lactating women should consult their health care provider prior to taking this supplement.
