

Metabomax Plus (120 Capsules)

Stock Number: 3072

Benefits:

- Helps promote fat loss.
- Increases metabolism.
- Helps to curb appetite.
- Boosts energy levels.

How It Works:

This formula should be part of a program that includes healthy diet and exercise. Capsicum and green tea combine to increase thermogenesis and decrease body fat. EGCG from green tea is a powerful antioxidant, and some studies show that green tea may have beneficial effects on cholesterol levels already in the normal range. **Bitter**

orange fruit (*Citrus aurantium*) naturally contains synephrine, which helps the body use energy properly, stimulates metabolism, helps with the uptake of amino acids into muscle, increases lipolysis (the breakdown of fat) and can exert mild hunger-suppressant effects. **Yerba mate and guarana** increase thermogenesis by boosting energy expenditure and metabolism. These two herbs provide natural sources of caffeine (20 mg per capsule) that is utilized by the body for energy and endurance. **Ginger** has been used traditionally for lipolysis and weight management, and it may have a metabolic-boosting effect. **Chickweed** is an essential ingredient in our popular Fat Grabbers product. **Guggulipid herb** contains guggulsterones, which, according to studies, help maintain cholesterol levels already within the normal range. Guggulsterones may help reduce fat stores due to their thyroid-stimulating activity.

Ingredients:

Green tea leaf extract, capsicum fruit, guarana seed extract, ginger rhizome, bitter orange fruit extract, guggulipid, yerba mate leaves extract and chickweed aerial parts.

Recommended Use:

Take 1–2 capsules three times daily with food. **NOTE:** Too much caffeine may cause nervousness, irritability, sleeplessness and occasionally rapid heartbeat. Not recommended for use by children under 18 years of age.

Product Variations:

- Metabomax Free (120 Capsules)
