

Super Algae (100 Caps)

Stock Number: 1056

Benefits:

- Helps build the blood and strengthen the immune system.
- Provides the body with a pure source of chlorophyll and natural protein.
- Is rich in essential minerals and B vitamins.
- Contains nine essential amino acids.

How It Works:

Super Algae packs all of the benefits of the three most popular algae supplements. Algae is a super-food, rich in easily assimilable nutrients. Spirulina contains two-and-a-half more vitamin B12 than liver, is the best botanical source of protein available, and contains several antioxidant-rich carotenoids. Chlorella is a freshwater green algae noted for its chlorophyll content. Klamath Lake in Oregon is a pristine source of Klamath Lake blue-green algae. Super Algae maximizes protein, amino acid, chlorophyll and carotenoid content of each algae species, providing a balanced, nutritional formula. Super Algae also supports the immune system.

Ingredients:

Spirulina, Klamath Lake blue-green algae and *Chlorella vulgaris*.

Recommended Use:

Take 2–4 capsules with a meal three times daily.
