

## **SOME BASICS** (a work in progress) cont. #3

“**Some Basics**” is a list of ideas and nutraceutical/transferceutical products we compiled to assist people in getting into, what we consider, is a productive frame of mind with regards to herbal and nutraceutical and transferceutical supplements. It is by no means the be-all and end-all. We're sure others will have additional thoughts on this.

Our last email (February #2) dealt with a **Clean Air and Pure Water**.

Previous installments of “**Some Basics**” are available at our website.

<http://www.naturesbetterway.com/> Our complete list is located at the bottom of this article.

Next on our list of “**Some Basics**” is **Transfer Factor**.

**Transfer Factor** is the first supplement on the list because of the importance of the body's Immune System. Some have referred to **Transfer Factors** as nature's

first supplement. **Transfer Factor** is the Immune System product. Our Immune System is our castle wall. **Transfer Factors** are **Immune System** educators. There is no other supplement that does what transfer factors do! They are simply different. You need to **do what you need to do to educate yourself** about them and their significance. Here is some info that will assist you if you are interested in a strong competent immune defense.

## **Transfer Factors, aka**

Bovine Dialyzable Leukocyte Extract, Bovine Dialyzable Transfer Factor, Bovine Transfer Factor, Dialyzable Leukocyte Extract, Dialyzable Transfer Factor, DLE, Extrait Dialysable de Leucocyte, Facteur de Transfert, Facteur de Transfert d'Origine Bovine, Factor de Transferencia, Human Dialyzable Leukocyte Extract, Human Transfer Factor, TF, TFd.

<http://www.webmd.com/vitamins-supplements/ingredientmono-1011-transfer%20factor.aspx?activeingredientid=1011&activeingredientname=transfer%20factor>

**Transfer Factors** were first discovered in 1949 by **Dr. H. Sherwood Lawrence**. Dr Lawrence was an American immunologist best known for this discovery.

**Transfer factors** are **not vitamins, minerals, or herbs**—substances that add nutrients to the body.

**Transfer factors** are molecules that actually **transfer immune memory and knowledge from one immune system to another**. That's right, you heard it right! They are able to transfer immune system knowledge from one immune system to another immune system. And, they're capable of doing this across species lines. That's right, you heard that right also! They're capable of doing this across species lines.

We first heard about **Transfer Factors** in the summer of 2001. We were on a long distance call to a colleague in California talking about a completely different matter other than health and wellness. Towards the end of that call he asked if we had ever heard of **Transfer Factors**. We hadn't. He started to explain and I have to admit that **the more he talked the more confused I got**.

**Transfer factors provide the "blueprint" for building a strong immune defense.**

We were intrigued!

Are you familiar with the phrase **"I'm from Missouri"**? The State of Missouri's nickname is **the Show-Me State**. When someone says to you **"I'm from Missouri"** they mean **"prove it to me"**. Well, we're from Missouri. We've seen a number of charlatans over the years. Try this, try that. This new product or that new product is "The greatest thing since sliced bread". When we first heard about **Transfer Factors** we thought **"This is too good to be true, prove it to me"**.

Hardly a week goes by where we are not approached in our store by some salesperson pushing some "great" "new" health/wellness product. These great new products are often just re-combinations of various vitamins, minerals, and herbs in different amounts and combinations and a catchy name. Dad used to say **"They give it a name and everybody goes crazy"**.

This **Transfer Factor** stuff seemed different. We started to investigate it.

What we learned was truly amazing. Words like “**acquired immunity**”, “**primary and secondary immune response**”, “**natural killer cells**”, & “**auto-immune**” took on new significance.

We heard respected doctors from different modalities saying things like this:

**"I BELIEVE THIS PRODUCT IS, WITHOUT A DOUBT, THE GREATEST DISCOVERY OF THE CENTURY IN PREVENTING ILLNESS AND WILL BE THE PRIMARY WAY TO TREAT ILLNESS IN THE FUTURE." ROB ROBERTSON, MD**

**"TRANSFER FACTORS MAKE UP A HIGHLY CONCENTRATED IMMUNE MESSAGING SYSTEM, DESIGNED BY NATURE TO TRANSFER CRITICAL IMMUNE PROGRAMMING FROM ONE INDIVIDUAL TO ANOTHER." WILLIAM J HENNEN, Ph.D.**

**"TRANSFER FACTOR IS TODAY WHERE VITAMINS AND HERBS WERE 15 YEARS AGO. WHAT A GREAT OPPORTUNITY IS IN STORE FOR THOSE WHO GET INVOLVED NOW!" CALVIN McCAUSLAND, Ph.D.**

**"WITH TRANSFER FACTORS WE CAN TEACH OUR IMMUNE SYSTEMS HOW TO DEAL WITH MILLIONS OF MICROORGANISMS. THIS IS BIG NEWS IN PREVENTIVE MEDICINE!" ROB ROBERTSON, MD**

**"WE HAVE GIVEN 4 LIFE TRANSFER FACTOR TO CHILDREN AS YOUNG AS THREE WEEKS OLD... SO FAR, WE HAVE BEEN ABSOLUTELY BLOWN AWAY BY THE RESULTS!" DAVID MARKOWITZ, MD**

**"ALL OUR CANCER PATIENTS ARE ON TRANSFER FACTOR. IT REALLY BUOYS THE IMMUNE SYSTEM UP. YOU'RE LOOKING AT A PRODUCT THAT IS TRULY REVOLUTIONARY. I THINK WE HAVE A DUTY TO GET THE WORD OUT, TO MAKE PEOPLE HEALTHIER, AND TO ENJOY LIFE MORE." DUANE TOWNSEND, MD**

**Only a Live and Vibrant Immune System can keep up with Mutating Microbes!**

15 years ago there was essentially one company that effectively brought **Transfer Factor** to the market. Today, over 15 years later, there are a few more companies offering products that claim to contain amounts of **Transfer Factors**.

According to studies **Transfer Factors are dose dependent**. This means the amount of **transfer factor** you consume is important and will not have the same effect if too small of a dosage. There are several studies that have made it clear that the effectiveness of transfer factor is depended on the dose involved.

When you check out products that claim to contain **transfer factors** you will find that most if not all of them have around 12.5 mg of **transfer factor** per capsule. They refer to it as fractionated colostrums. Basically you have concentrated colostrum. Products containing significantly higher amounts of **Transfer Factors** are available. **Call us - 810-678-3131**

Although **transfer factors** are in all animals and are molecular identical the main sources of them for human transferceutical use come from cow colostrum or egg yolks.

**You owe it to yourself and your family and friends** to, at the very least, have a basic knowledge about this, to examine or **re-examine transfer factor**. It's **not a vitamin**, it's **not an herb**, it's **not an oil**, it's **not an enzyme**, it's **not a probiotic**, it's **not a homeopathic**, it's **not a flower essence** and on and on. **It's different, simply different!**

**Transfer Factors** educate your body about pathogens (like anti-virus protection software you have on your computer), assist in **unprecedented immune response**, and assist in modulating or down regulating over active systems supporting your immune system's ability to **recognize, respond to, and remember** potential threats. Ask yourself: "**How much information do I need?**". There is over 60 years of research about **Transfer Factors**. There are thousands of studies. The problem we've noticed is that there is so much supporting information and studies that it can be overwhelming.

**Call us - 810-678-3131**

The best testimonial we can give anyone (**keep in mind testimonials prove nothing**) is that we have been personally using **Transfer Factors** for over 15 years and will not be without them. We also have the benefit of over 15 years of personal testimonials from our customers.

Since **Transfer Factors** are not species specific, **our animal friends** can also benefit from taking **Transfer Factors**. Our dog, Homer, likes his!

[HTTP://VETERINARYNEWS.DVM360.COM/TRANSFER-FACTOR-LONG-AWAITED-NEXT-STEP-IMMUNOTHERAPY](http://veterinarynews.dvm360.com/transfer-factor-long-awaited-next-step-immunotherapy)

Only a few centuries ago it took 2-3 months for European explorers to sail across the Atlantic Ocean. They brought with them diseases that infected the natives in the NEW WORLD. These diseases had very serious consequences for these native peoples. Likewise in returning to Europe the explorers took back with them disease they picked up in their journeys. Today you can be standing next to someone who less than 24 hrs. ago was on the other side of the planet. We have democratized disease. How capable do you want your immune defenses? **Does any of this make sense?**

**Disclaimer: We do not directly dispense medical advice or prescribe the use of herbs or supplements as a form of treatment for illness. The information found here is for educational purposes only to empower people with knowledge to take care of their own health. We disclaim any liability if the reader uses or prescribes any remedies, natural or otherwise, for him/herself or another. Historically all of these herbs & vitamin supplements may nutritionally support the body's biological systems. Please consult a licensed health professional should a need be indicated.**

**These are our ideas. We are not doctors nor do we play one on TV. We cannot diagnose and we will not prescribe. No claims are made. These are just our ideas based on a long family history (over 80 years) in and around the health and nutrition business. Do your own "due diligence" and investigate this. You are the most important person in the world! To you - you are! No one cares more about you than you do. Pay attention! We only go around once.**

**Are in charge**

Here's the list of **Some Basics**:

- **Real "Want to"**
- **Conviction**
- **Consistency**
- **Clean Air**
- **Pure Water**
- **Transfer Factor**
- **Multiple Vitamin/Mineral (Food Source)**
- **Probiotics**
- **Digestive Enzymes**
- **Hydrated Bentonite**
- **Psyllium**
- **Other Considerations**

If you have any questions, please do not hesitate to contact us.

To your health and wellness,

***Chuck & Judy Erkfitz***
